

# COS Hands-On Demonstrations

## For WSU Staff

Thursday, November 12, 2009  
10:00 to 11:30 AM  
Undergraduate Library, Computer Lab B

## For Graduate Students, Part-time Faculty & Post-docs

## For WSU Full-time Faculty

Monday, December 7, 2009  
2:00 to 3:30 PM  
Undergraduate Library, Computer Lab C

## COS Expertise & Funding Opportunities

- Find funding
- Identify collaborators and competition
- Promote your research

## COS ScholarUniverse

- Find out who shares research interests outside your discipline
- Inform teaching, research and writings with perspectives from Scholars from multiple fields to make work more inter-disciplinary
- Easily find and contact active thought leaders in areas of interest
- Find researchers with experience using the tools and materials needed to advance your research
- Edit your profile to ensure the most accurate professional representation of yourself and your research

## COS PapersInvited

- Provides publishing opportunities via conference proceedings and special issues of journals
- Provides awareness and the chance to attend upcoming conferences in fields of interest
- Covers all disciplines
- Do cross-discipline searching using keywords to find out about events and publishing opportunities you would never have thought of looking for
- Information about each event and publication includes information on session tracks and poster sessions

Please register in advance for this training so we can prepare the appropriate amount of hand-outs. To **register** for COS trainings, login to **Pipeline**, go to the **Employee or Student tab** and click on the **Trainings, Seminars and Workshops button** on the far right side of the screen. Scroll down to the **Research** category, click on the **COS Training** link and select your session of interest. **Contact:** [sjames@wayne.edu](mailto:sjames@wayne.edu).
